## **The McTell Brothers**

### **Their story.**

It all started in 2003 at the tender age of 7, when Jeff and Brian got their first guitars and started lessons. And by the ripe old age of 9 the fraternal twins were already playing open mics in their home state of Virginia.

They bought electric guitars and started mastering the blues — despite not even being double digits in age, and years away from hanging out in bars.

The McTell Brothers have gone on to play with some of country's top songwriters and guitarists from Nashville, Austin, New York and beyond. And they've played some of the top venues and festivals in the mid-Atlantic.

The twins play and sing acoustic and electric blues, rock, folk rock as well as their own compositions.

After 5-years touring as the J & B Blues Project, the 2-brothers felt it was time to embody the eclectic and wide variety of music they enjoy performing, along with their beloved blues. Their new name pays homage to legendary bluesman Blind Willie McTell.
